

## Corowa Swimming Pool Redevelopment.

Funding allocation: \$1.5 million

Project Partners: NSW Government  
Federation Council

Timeline: A detailed timeline will be developed.

The plans for a new pool at Corowa are getting closer to a reality with an injection of \$1.5 million from the Stronger Communities fund.

Council has also secured a \$1 million grant from the NSW Government which takes the total funds available for the pool to \$4 million. \$1.5 million in reserve

funds have been saved by Council over the last ten years.

Corowa's pool is over 60 years old and at the end of its operational life. The feasibility of a number of options have been explored for a new Pool with investigation into further options currently underway. Options have

included variations of outdoor 25 and 50 metre facilities and an indoor facility.

A decision has not yet been made in respect to what type of Swimming Pool facility will be built but is expected later this year so that a new pool can be constructed within the next two years.
