

Restoring our natural environment

federationcouncil.nsw.gov.au

Renewal of Kyffins Reserve.

Funding allocation: \$197,087

Project Partners: Fully funded from Stronger Communities Fund

Timeline: A detailed project timeline will be developed.

This project will improve the existing 2.3km walking track along the foreshores of Lake Mulwala between Kyffins Reserve and Mulwala and extend the track by almost 1km, giving a boost to tourists and residents who enjoy the area for free camping and recreational activities.

400metres of rural fencing will also be erected along parts of the track to encourage and protect native growth and to create a picturesque walkway that will be sure to see plenty of action.

The project implements actions identified within the Reserve

Management Plan which was developed in collaboration with Goulburn Broken Catchment Management Authority, Murray Local Land Services and the Yorta Yorta Nation.
