Consider running power underground

Regrade uneven ground and provide gentle batter towards activity area

Excess fill from installation of play space used to create grass mounds

Consolidate exposed drainage lines and install pipe between culverts and remove headwalls

Nest Swing

Bouncers

Play cubby and sand

BBQ and picnic shelter with long timber tables reflecting the local tradition of unity and congregation in the spirit of Federation

Potential new shelter over mound

Play space elements constructed from locally sourced timber and local stone where possible

Update Rail Crossings in line with proposed material palette

Shelter over Train Station to match BBQ shelter

Park extended into existing car park to maximise performance viewing area and improve pedestrian connectivity to park and amenities

New public amenities to match BBQ shelter including 3 cubicles, 2 disabled toilets and a small storage room
