WATER MAIN CLEANING

Federation Council is soon to commence water main cleaning in the township of Corowa in August.

The air scouring process will take approximately 10 to 14 days to complete and customers will receive a letter informing them of dates and times their water supply will be affected.

During the cleaning process customers may encounter dirty or discoloured water over the 7 to 10 days. Due to the ongoing commitment by Council to maintain a quality water supply for our townships, water mains are cleaned on an annual basis.

For further information, contact Council on (02) 6033 8999.

COUNCIL INTRODUCES ONLINE RATES PAYMENTS

Ratepayers can skip the queue to pay their rates and water accounts this year as Council has introduced yet another payment option through its corporate website.

Ratepayers can now visit Council's website and pay their rates and water account via BPOINT.

It is easy to make a payment. Ratepayers simply have to choose their biller code and enter their customer reference number and this will pull up details of their payment. This new service gives our ratepayers the option of paying in the comfort of their own home and it will also allow ratepayers living overseas to make payments easily.

Council hopes residents will make use of the new online payment service on the Council website.

This move to offer rates payment on the Council website is just one of the list of improvements planned for Council's online services.

Council is progressively working towards enabling residents to make further payments and request for services online as we know that being able to pay for Council services online is convenient for residents and over time will produce cost-saving efficiencies for Council.

Visit Council's website to make an online payment today.
