MICROCHIP YOUR PET

Microchipping is a quick and harmless procedure where a small microchip is inserted between your pet's shoulder blades either by a local vet or animal welfare organisation. It provides identification only for your animal.

If your microchipped pet goes astray and is taken to a vet, pound or shelter, we use the microchip's data to contact you and quickly reunite you with your pet.

Microchipping your animal does not include registration. You must register your dog by 6 months and cats by 4 months of age.

Our furry friends are so important in our lives, so make sure your pet is microchipped so if it does go astray we can return it safely to you.

OVERGROWN VEGETATION

Spring weather has arrived providing ideal conditions for grass, shrubs, weeds and vegetation to grow rapidly.

With the months leading into Spring, providing generous rainfall and more forecast in the near future, abundant growth of vegetation is expected.

Federation Council wishes to remind all landowners that they are responsible for maintaining the vegetation within their property boundaries, fencelines and nature strips in good order.

As we head into the fire restriction period, properties should be regularly maintained into the future.

Please help keep our community safe by slashing, mowing or clearing overgrown vegetation.

Council staff respond to concerns about excessive vegetation on properties and have the ability to serve notices and issue penalties where a property owner is non-compliant.
