

“How To” create a triangle for your community, in 4 easy steps.

Step 1:

Using the template, or alternatively by measuring a 20cm base and 29 cm height triangle on your fabric, cut out the triangles on your chosen fabric.

* remember one bunting triangle requires two (2) individual triangles.

Step 2:

Once you have cut your triangles out, line them up back to back, pinning them along the ‘sew line’ shown on the template. If you measured your triangle onto your fabric, just make sure the pins are around 1cm in from the side edges.

* Note: you do not need to pin along the base of the triangle

Step 3:

Sew the sides of your triangles together, along the sew line, using your chosen method.

- Sewing machine
- Hand stitching

Using an overlocker – the pins will assist you keeping the triangles in place, while you sew the edges together.

*Remember to leave the base of the triangle open so we are able to put everyone’s creations on the finished bunting line.

Step 4:

Once complete (you can sew as many triangles as you like, with as many different colours/patterns as you like), make sure to put all triangles together with a label highlighting:

- Your First and Last name
- your contact phone number
- date of delivery to Council building.

Thank you for being creative with the community. We will ensure to keep everyone updated on the progress of the bunting over the next few months.
