

SLOANE'S CHAMPIONS WORKSHOP

SLOANE'S FROGLET
CRINIA SLOANEI

VULNERABLE SPECIES

Sloane's Community Monitoring Program

**WHEN: 5:30PM, THURSDAY 4TH JULY
2019**

**Where: Memorial Hall, located between Sanger and
Queen Streets, Corowa**

**Followed by field trip to Whitehead Street Wetlands
Food and Drinks Provided**

Sloane's froglet (*Crinia sloanei*) is a small-threatened species that is restricted in NSW to only a few locations along the Murray River. One of the largest populations is found in the Corowa region.

Sloane's Champions is a community survey and monitoring program where you can join in and help monitor the presence of the froglet in Corowa. The Data collected from this program will help to plan

and prioritise conservation work to secure its long-term future.

Join NSW Office of Environment and Heritage, Federation Council and Corowa District Landcare Group to learn about Sloane's froglet before heading out to Whitehead Street Wetlands to conduct surveys. Sign up to be a Sloane's Champion and continue to participate in community surveys throughout the year.

Everyone is welcome to come along & join in the fun of monitoring Sloane's froglet.

Bring a torch, warm jacket and gumboots/comfortable shoes.

RSVP to: Angela.Lawson@federationcouncil.nsw.gov.au

BY 28TH JUNE 2019

In preparation for the workshop, download the FrogID app from Google Play or the App store.
