

SLOANE'S CHAMPIONS SPOTLIGHT NIGHT

Sloane's froglet

Crinia sloanei

Threatened Species

Sloane's Froglet Community Monitoring Program

When: 5:30pm, Friday 30th June 2023

**Where: Whitehead Street Wetlands
Honour Ave, Corowa**

RSVP to Meredith meredithmitchell@corowalandcare.com.au by 23rd June

Sloane's froglet (*Crinia sloanei*) is a small-threatened species that is restricted in NSW to only a few locations along the Murray River. One of the largest populations is found in the Corowa region.

Sloane's Champions is a community survey and monitoring program where you can join in through the FrogID App and help monitor the presence of the froglet in Corowa. The data collected from this program will help to plan and prioritise conservation work to secure its long-term future.

Join our local frog expert David Hunter (Department of Planning and Environment), to learn about Sloane's froglet and awareness of Threatened Species.

Please bring a torch and wear sturdy shoes.
